

## AFFORDABLE RENT BY INCOME

NOTE: affordable rent is defined as costing no more than 30% of household income. Data shown is from the Metro Vancouver Housing Data Book (2016 census data) and is specific to Richmond. The uppermost value in the range for each income category was used in calculations.

\* IA, PPMB & PWD stand for "Income Assistance", "Persons with Persistent Multiple Barriers" and "Persons With Disabilities" respectively. They are forms of assistance provided by the BC government to those in need, and the base rate of \$375 shelter allowance designated for rent hasn't increased in 30 years.
